

2024-2025 STO Information

TBA partners with several School Tuition Organizations to help provide supplemental funding for tuition costs. You will find those STO Partners listed below along with additional information. If a student is receiving ESA funds, they are not eligible to receive any STO funding.

We recommend STO funding for Kindergarteners, as they stand a better chance of receiving funding to completely cover tuition costs. ESA funding only covers 75-90% of TBA's tuition.
